## HERE'S HOW TO PLAY

---

### STEP-BY-STEP INSTRUCTIONS

**NOTE:** Set the Left and Right Difficulty Switches to Position **A**.

### STEP 1: Getting started.

After power is turned on, a demonstration of the game is shown on screen. Press the Red Button on the left controller or the Game Reset switch to start a one-player game.

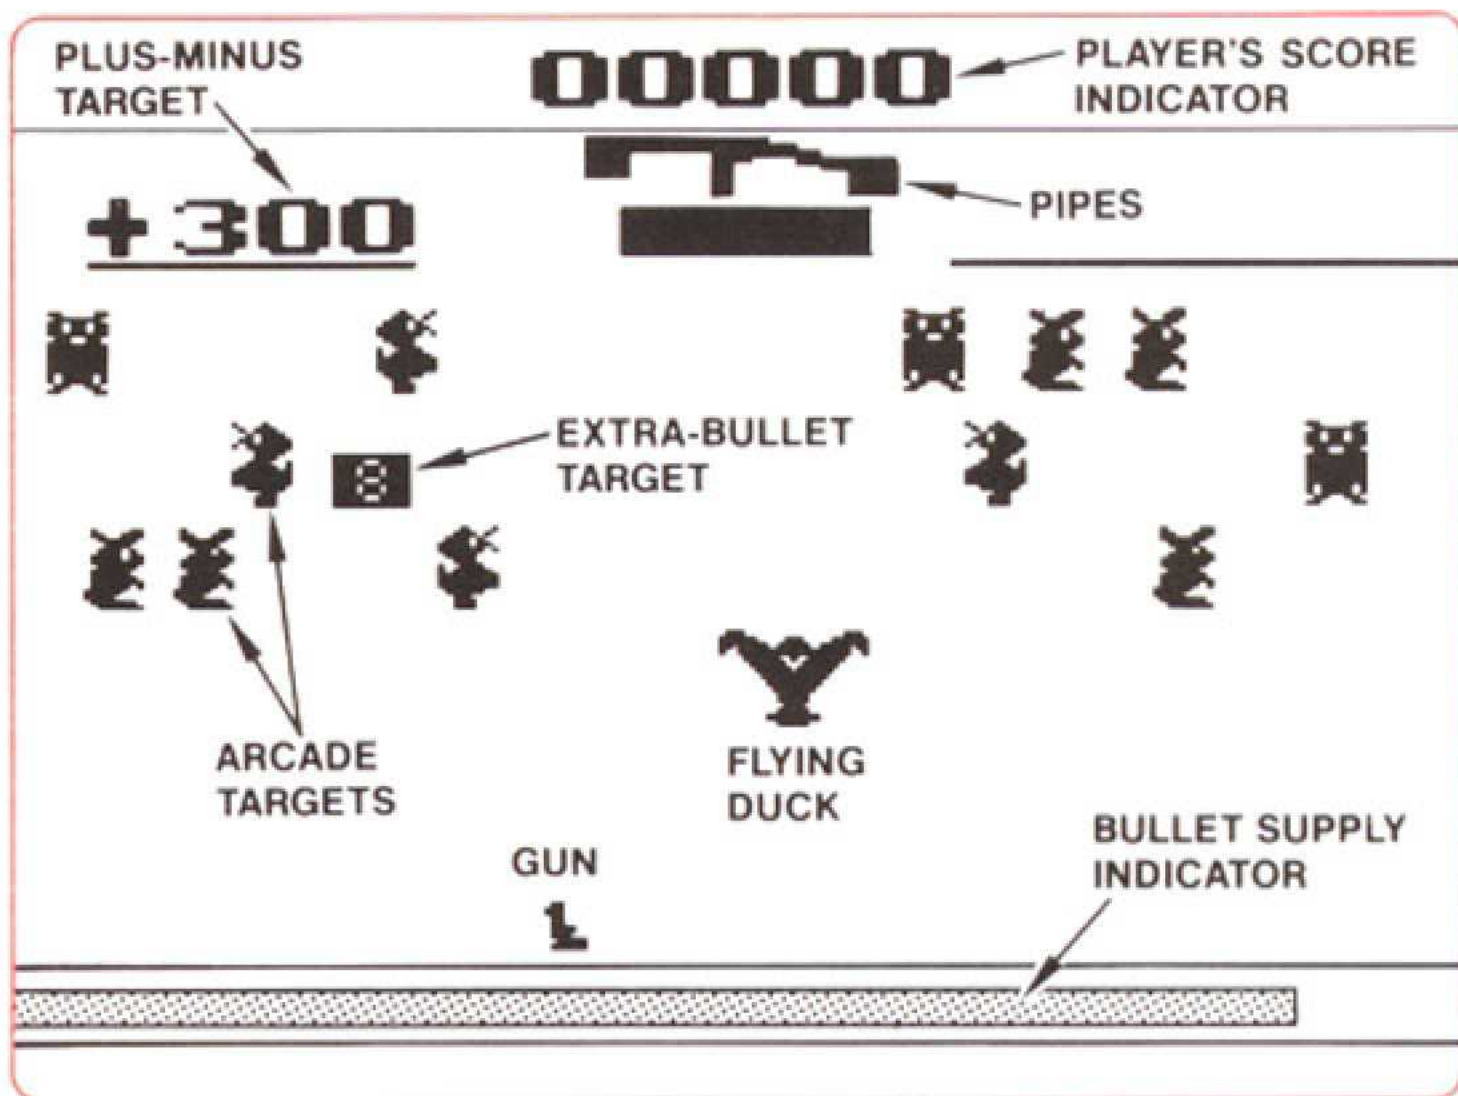

To select a two-player game, press the Game Select switch for two-player, then press Game Reset.

### STEP 2: Fire away!

Rack up points by firing bullets at the moving targets:

- Owls
- Rabbits
- Ducks
- Extra-Bullet Boxes

But be careful how you aim. Your bullet supply is limited.

## STRATEGY

### Ducks Bite the Bullets

Watch out! Ducks that you don't hit can fly down from the bottom row to eat ten of your bullets!

**Special Strategy:** Make sure you use up at least eight bullets before hitting the Extra-Bullet target. Your bullet supply can never show more than 40 bullets.

### Pipe Dreams

Eight on-target hits clear the pipes from the screen. Hit the same color pipes with two consecutive shots and you get four times the pipe score value.

**Special Strategy:** Knock out the pipes early in the game, while avoiding the moving targets. If the pipes remain in view while you are hitting the moving targets, ducks, ducks and more ducks start coming out!

## Win Some — Lose Some

Score extra points or bullets by hitting the plus-minus target when the plus sign shows. But look out! If the minus sign is showing when the target is hit, the points or bullets are subtracted from your score or bullet supply.

## The End

Clear the rack of all moving targets and pipes to move on to the next higher level of game play. The game ends when the last bullet is fired.

To replay the type of game you have been playing, press the Game Reset switch.

### SCORING

Points scored for each target are listed according to level of play:

Target	Level: 1	2	3	4
Pipe	200	200	200	200
Bottom Row	20	30	40	50
Middle Row	40	50	60	70
Top Row	60	70	80	90
Extra Bullet	8	8	8	8

Hit two pipes of the same color with two consecutive shots for a score of 200 points for the first pipe and 800 points for the second.

After you clear the gallery, 50 points are added to your score for each bullet remaining at the bottom of the screen. The maximum number of bullets you can have in the Bullet Supply is 40.
