So, you have ignored our warning.

Very well!!

At each level there are **RADIOACTIVE BEACONS** that must be destroyed. These **BEACONS** are guarded by impact exploding **SAUCERS** which guard the **BEACONS**.

The **BEACON** indicator advises you of the number of **BEACONS** left to destroy at this level.

Use your joystick to aim at oncoming **SAUCERS** and **BEACONS**. The cross-hair indicate your position in the warp. Fire as often as required.

You must keep moving to avoid collision with **SAUCERS** or **BEACONS**. Each collision will cost you 1 shield.

Remember you are racing against time. And must destroy all **BEACONS** before time runs out.

Destroying all **BEACONS** at any level will advance you to the next level.

The timer is reset at the beginning of each level.

You start with either 3 or 5 shields (see page 4).

A bonus shield is given for every 10,000 pts.
