TRASH BOSS, GETS DUMPED

ANGRY BEAVER LOOSE IN DOWNTOWN AREA

A bizarre story emerged this past Friday as scared Downtown residents began calling the local police enforcement agencies with reports of a giant gun totting Beaver. residents have been warned not to feed the creature.

Scenes that have caused uproar amongst Video City residents played out at City Hall this past Tuesday.

Video City local celebrity J.B.BadBody labelled 'The King of clean' and former boss of BADBODY CLEANING CORP was this week arrested under a work placement danger violation. The court hearing saw instant dismissal of Mr. BadBody's refuse licence and ability to trade.

Angry residents fear for the future of the city.

STORY

Video City a modern sprawling metropolis, a home to movie stars, athletes and the common man.

It's a City where anything can be found, and adventure is never far away!

It's also a City with a TRASH problem, but this wasn't always the case....

The once idyllic streets of Video city were always kept clean by one man: Johnny BadBody, the boss of BadBody Cleaning Corp.

Johnny along with his Super Trash Truck, was the town hero! The City's own celebrity!

But Video city, like other towns and metropolis', could not escape the hand of crime which swept across the peaceful City like a black cloud. Extortion rackets moved in and Johnny was put under increasing pressure to leave.

Mob bosses with their own cleaning agenda framed Johnny, blaming him and his Super Trash truck for an accident involving injured workers. Mayor Spritez had no choice but to revoke his refuse license and send him packing from Video city. Johnny was a celebrity no more.

Fast forward two years, and Video city is sinking in its own TRASH.

Out of options, and out of money, mayor Spritez makes a desperate call to Johnny, pleading for him to save the city.

Johnny vows to clean the filthy streets and restore his good name.

Now it's time to jump in the truck, rev up the engine, and get cleaning!

Johnny

I have attempted to call you several times now personally, Grace in my office refuses to call you and says i must do this myself, and i know this is true.

I don't expect you to forgive me for what happened to you but you must understand those guys were threatening me too.

I'm losing this City and my sanity, i truly do not no what to do, you are our only hope.

I don't expect you to forgive me, but please find it in your heart to help the citizens of Video City, they love you, do it for them.

Yours Sincerely

Marco Spritez

VENUS FLYERS, SOAR TO THE WIN

The City's streets were flooded with thousands of happy Video City residents this past Saturday night as our very own Venus Flyers went on to win the world series.

Player of the night and Video City's leading hitter of the season Rick Dangerous put the game into far reach after two home runs in the first quarter.

A third home run for Dangerous in the third quarter had fans literally leaping out of their seats.
